Education

Princeton University

PhD in Computer Science

- Advisor: [Peter Henderson](#)

Princeton, US

2025 – Present

University of Cambridge

MPhil of Advanced Computer Science (Track: AI and ML)

- GPA: 4.0/4.0 (Distinction)
- Advisor: [Andreas Vlachos](#)
- Funded by: Open Philanthropy

Cambridge, UK

2023 – 2024

Universidad Politécnica de Valencia

Bachelor of Science, Data Science

- GPA: 9.6/10 (Rank: 1st/75)
- Advisor: [Jose Hernandez-Orallo](#)
- Funded by: The Government of Spain

Valencia, Spain

2019 – 2023

Representative Work

Measuring Generalization Surprises in General-purpose AI

Lexin Zhou*, Michel Liao*, Boyi Wei, Lucy He, Zeyu Shen, Joie Zhang, Kincaid MacDonald, Dominik Stambach, Vartan Shadarevian, Ruiyu Wang, [...], Jose Hernandez-Orallo, Thomas L Griffiths, Peter Henderson

In Submission to Nature (arXiv-ing soon)

Main Fundings: OpenAI and Google DeepMind

General Scales Unlock AI Evaluation with Explanatory and Predictive Power

Lexin Zhou, Lorenzo Pacchiardi, Fernando Martínez-Plumed, Katherine M. Collins, [...], David Stillwell, Manuel Cebrian, Jindong Wang, Peter Henderson, Sherry Tongshuang Wu, Patrick C. Kyllonen, Lucy Cheke, Xing Xie, José Hernández-Orallo

 *Nature* (#1 Multidisciplinary Science Journal Worldwide), 2025

Media Coverage: Microsoft Research, TLDR AI, LessWrong ("AI in 2025: gestalt", Independent Tech Review by G. Leech)

Invited Talks: Future of Life Institute, Microsoft Research, POLARIS and COCOSCI labs at Princeton University

Main Fundings: OpenAI and Microsoft

Larger and More Instructable Language Models Become Less Reliable

Lexin Zhou, Wout Schellaert, Fernando Martínez-Plumed, Yael Moros-Daval, Cèsar Ferri, José Hernández-Orallo

 *Nature* (#1 Multidisciplinary Science Journal Worldwide), 2024

Media Coverage: Nature, Forbes, MIT Tech Review, IEEE Spectrum, El País, New Scientist, QbitAI, IBM, etc.

Invited Talk: AI & Society Research Talk Series at Microsoft Research

Main Fundings: OpenAI and Open Philanthropy

An LLM Feature-based Framework for Dialogue Constructiveness Assessment

Lexin Zhou, Youmna Farag, Andreas Vlachos

Conference on Empirical Methods in Natural Language Processing (EMNLP), 2024

Top 0.5% of Submissions (Avg. Rev. Score = 4.17/5)

Predictable Artificial Intelligence

Lexin Zhou, Pablo Moreno-Casares, Fernando Martínez-Plumed, John Burden, Ryan Burnell, Lucy Cheke, Cèsar Ferri, Alexandru Marcoci, Behzad Mehrbakh, Yael Moros-Daval, Seán Ó hÉigeartaigh, Danaja Rutar, Wout Schellaert, Konstantinos Voudouris, José Hernández-Orallo

Artificial Intelligence Journal (Q1), 2023

Research & Industry Experience

Google DeepMind

Invited Researcher

Aug 2026 – Present

International Programme on AI Evaluation: Capabilities and Safety

Faculty & Mentor

May 2026 – Jun 2026

Microsoft Research

AI Research Resident (supervised by Dr. Xing Xie, Vice Managing Director at MSRA)

Nov 2024 – Aug 2025

Meta AI

AI Consultancy

Jan 2024 – Mar 2024

OpenAI

AI Consultancy

Sep 2022 – Mar 2023

European Commission

AI Consultancy

June 2022 – Sep 2022

VRAIN

Research Assistant (advised by Prof. Jose Hernandez-Orallo, Director of Research at LCFI at Cambridge University)

Jan 2022 – May 2023

Honors & Awards

2026 \$10K Research API Credits, Google DeepMind

2026 \$25K Research API Credits, OpenAI

2025 \$15K Microsoft Accelerating Foundation Models Grant, Microsoft Research

2024 \$20K Research API Credits and Early Access to GPT-4, OpenAI

2023 \$50K Open Philanthropy Long-Term Future Grant, Open Philanthropy

19'-23' Best Academic Record Awards (ranked the 1st in the BSc data science cohort every year), Uni. Politècnica de Valencia

Media Coverage: My work has been featured by Nature (x2), Financial Times, Forbes, MIT Tech Review, Microsoft Research, IEEE Spectrum, El País, New Scientists, QbitAI, IBM, TLDR AI, among other media outlets.

Professional Service

- Invited Talk: “[General Scales Unlock AI Evaluation with Explanatory and Predictive Power](#)”, *Computational Cognitive Science Lab at Princeton University*, 2025.
- Invited Talk: “[General Scales Unlock AI Evaluation with Explanatory and Predictive Power](#)”, *Future of Life Institute*, 2025.
- Invited Talk: “[General Scales Unlock AI Evaluation with Explanatory and Predictive Power](#)”, *Microsoft Research Asia*, 2025.
- Invited Talk: “[General Scales Unlock AI Evaluation with Explanatory and Predictive Power](#)”, *POLARIS Lab at Princeton University*, 2025.
- Invited Talk: “[Larger and More Instructable Language Models Become Less Reliable](#)”, *Microsoft Research: AI & Society Research Talk*, 2024.
- Invited Talk: “[An LLM Feature-based Framework for Dialogue Constructiveness Assessment](#)”, *Toshiba Cambridge*, 2024.
- Journal/Conference Reviewer: Nature (*invited to review the paper of DeepSeek-R1, the most powerful open-weight LLM as of early 2025*), Nature Machine Intelligence, ACL 2025, ACL 2023, AMMAS 2023.
- Conference Organising Committee: The 1st kick-off event of [Predictable AI](#) conference, Valencia, 2023.

Miscellaneous

- Language: English (Proficient), Spanish (Native), Chinese (Native), Catalan (Learner).
- Leisure Activities: Outside of science, I spend my time playing piano, tennis, snowboarding, traveling with loved ones, or enjoy reading about miscellaneous philosophical/science content.
